

Advanced Reporting

Customize, Create and Manage Reports!

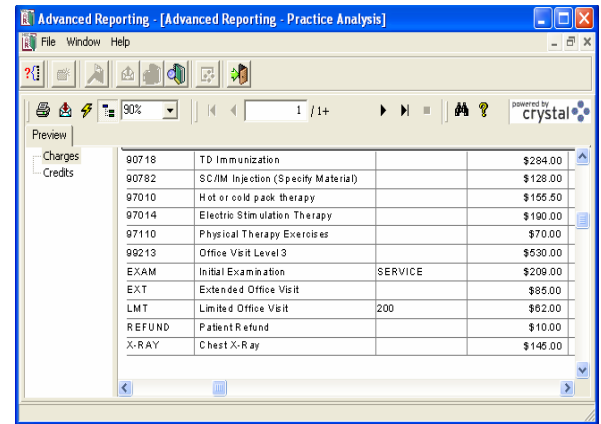

New with Lytec 2006 — Advanced Reporting*! Transform your medical practice data into actionable information with custom and new reports using Lytec 2006 Advanced Reporting.

Flexible and Secure

- Easily modify many existing Lytec 2006 reports!
- Customize and organize reports through user-defined folders
- Customize many standard Lytec reports or create entirely new reports through user-defined tables
- Utilize new reports: Executive Practice Summary, Executive Collection Summary and Patient Chart Labels
- Import existing reports you may have created using Crystal Reports from prior Lytec version

User-friendly interface

Select and run reports easily

Intuitive

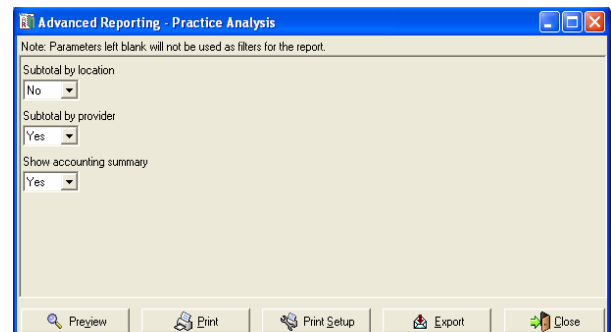

- User-friendly interface enables users to easily run new or modified reports
- Drag and drop custom reports and folders within a tree structure
- Tree structure organizes reports for easy access

Robust Data Mining

- Create and customize report filter parameters
- Create entirely new reports using Crystal Reports Professional Version 10

Industry Standards

- Lytec Advanced Reporting is based on the industry-standard report writer, Crystal Reports from Business Objects
- Easy report and data export to Adobe (PDF), HTML, Excel, Work, ODBC, XML and RTF file formats

Create and customize parameters for report filtering
